## WORDS OF SUPPORT

Dr. Berg went out of her way to mentor and guide me during my pre-dental journey. While shadowing Dr. Berg, I witnessed first hand the generous, hardworking, intelligent individual she is. I am confident that Dr. Tamara Berg will be a valuable leader of the American Dental Association.

Dr. Berg's passion for dentistry extends well beyond the operatory through her volunteerism and genuine care for her patients and staff. She is the dentist and leader I strive to be.

Jessica VanHavermaet, DDS

I remember speaking to Tamara about her term on the ADA's Council on Membership and how we both were lucky to serve our profession while simultaneously building lifelong friendships with colleagues across the country. You could see the enthusiasm in both our eyes, and it was awesome to share that moment with her.

Duc "Duke" M. Ho, DDS FAGD

Dr. Tamara Berg is a phenomenal dental leader, who has a vision for our profession and the organizational ability to carry it out with efficiency and inclusivity. I have worked with Dr. Berg for 25 years in leadership positions at all levels, and she knows how to problem solve and think outside the box. She would represent the ADA membership at the Board of Trustees level with skill and expertise. She is my choice to lead our profession forward!

Krista Jones, DDS

From the time Dr. Berg entered dental school, she has been recognized for her outstanding leadership at the local, state, and national level. She will bring the same dedication and commitment and a much needed perspective and voice to the ADA.

Carol Gomez Summerhays, DDS, MAGD

# A NOTE FROM DR. BERG

Dear friends and colleagues,

Volunteering and sharing industry information through organized dentistry has always been so meaningful to me, and I would love to continue giving back to the dental community and our patients by serving as the next ADA Second Vice President.

I have been involved with the Tripartite throughout my entire career, from dental school to serving on local and state committees, then in several leadership roles, eventually becoming President of my local component society and state association. I have served at the national level as part of the ADA Council of Membership and am currently a delegate to the American Dental Association from Oklahoma.

The relationships I've built through ADA have provided me with support, knowledge, treasured friendships, and helpful professional connections. I've met mentors and mentees that have changed my life, and ADA's continuing education has made me a better dentist and leader.

I am a tireless advocate for the ADA, its mission, and the many valuable benefits to members. I would be honored to continue representing you, my peers, and your viewpoints – working together to advocate and find solutions to issues impacting our profession and patients.

*We truly are stronger together.*

Humbly asking for your vote and trust,

*Tamara*
