| <p>General Licensure Requirements</p> | <p>Kansas Statutes Annotated 65-1426. Application for license; temporary license; qualifications of applicants; approval of dental schools or colleges. (a) Except as otherwise provided in subsection (c) or subsection (d), every person who desires to practice dentistry in this state shall file with the executive director of the board a written application for a license, and furnish satisfactory proof that the applicant is at least 21 years of age, of good moral character and a graduate of a dental school or college approved by the board. Such application shall be upon the form prescribed and furnished by the board and verified by the oath of the applicant and shall be accompanied by the required fee and a recent unmounted, autographed photograph of the applicant. (b) The board shall approve only those dental schools or colleges which require the study of dentistry and dental surgery and which the board determines have standards of education not less than that required for accreditation by the commission on dental accreditation of the American dental association or its equivalent. (c) Notwithstanding the provisions of subsection (a), the board shall consider an application of: Any graduate of a dental school which has not been approved by the board if the applicant successfully completes a course of remedial or refresher instruction offered by a dental school or college where both the course and the school have been approved by the board. (d) Any graduate of an accredited dental school, dental college or dental department of a college or university, who: (1) Has a D.D.S. or D.M.D. degree and is otherwise qualified; (2) is not licensed to practice dentistry in Kansas; and (3) holds a license to practice in the state from which they are applying, upon application, may be issued a temporary license of not more than 14 calendar days to provide dental services under subsection (f)(4) of K.S.A. 75-6102, and amendments thereto. (e) The board is hereby authorized and empowered to adopt such further rules in regard to the qualifications of applicants for licensure, not in conflict with this section, as it from time to time may deem necessary and proper. (f) The board shall adopt rules and regulations establishing the criteria which a school shall satisfy in meeting the standards of education established under subsection (b). The board may send a questionnaire developed by the board to any school for which the board does not have sufficient information to determine whether the school meets the requirements of subsection (b) and rules and regulations adopted under this section. The questionnaire providing the necessary information shall be completed and returned to the board in order for the school to be considered for approval. The board may contract with investigative agencies, commissions or consultants to assist the board in obtaining information about schools. In entering such contracts the authority to approve schools shall remain solely with the board. 65-1428. For such testing organizations or organization of one or more state boards that certify the test results for a limited period of time, the examination must have been taken and passed no longer before the date of application than the certification period. All examinations provided for in this act shall be conducted in a fair and wholly impartial manner. The examination shall be both theoretical and clinical, and shall thoroughly test the qualifications of each applicant to practice dentistry.</p> <p>(b) The examination shall include the following subjects: Pathology, radiology, bacteriology, treatment planning, clinical dentistry, operative dentistry, prosthetics, crown and bridge technique, orthodontia, materials in dentistry, diet and nutrition, oral hygiene and prophylaxis, preventive medicine, peridontia, anaesthesia, oral surgery, oral medicine, principles of medicine and pharmacology, anatomy, physiology, histology, chemistry, embryology and such subdivisions of these general subjects as relate to the practice of dentistry and laws of this state regulating the practice of dentistry. The results of all such examinations shall be filed with the executive director of the board and kept for reference and inspection for a period of not less than two years.</p> <p>(c) Each applicant who has attained a passing grade on each examination required by the board and has met all other requirements for licensure set forth in this act shall be granted a license by the board. Every license issued under this act shall be in the form prescribed by the board. A license to practice dentistry shall not be construed as a property right, but a valuable right contingent upon the practice of the licensee in accordance with the provisions of law relating to the practice of dentistry and any rules and regulations adopted pursuant thereto.</p> <p>65-1429. Subsequent examination upon failure to pass; fee. Any applicant who fails to pass one or more sections of an examination given or approved by the board upon the first trial shall have a right to retake the examination. Any applicant who fails to pass the examination upon the first trial may be given credit for such sections of the examination as the board determines have been successfully completed by the applicant, but such credits shall be extended only to the succeeding examination. If the applicant shall fail to pass the examination on the second trial the applicant shall complete such additional or remedial instruction and training as the board shall, by rules and regulations, require prior to a third trial. After the third trial the board, within its discretion, may deny the applicant another examination.</p> <p>Kansas Administrative Regulations 71-1-9. Examination on dental law of Kansas. All candidates for a Kansas dental license as well as all candidates for a Kansas dental hygienist's license will be required to pass a satisfactory examination on the pertinent provisions of the Kansas dental law pertaining to the practice of dentistry and the practice of dental hygiene. Any license so issued may be revoked by the board upon evidence that an applicant has obtained a license under this section through misrepresentation or omission of a material fact in the application or other information submitted to the board.</p> <p>(b) Each applicant for licensure under this section must evidence the qualifications and meet the following requirements:</p> <p>(1) Each applicant for licensure as a dentist under this section must meet the requirements set forth in K.S.A. 65-1426, and amendments thereto. Each applicant for licensure as a dental hygienist must meet any applicable requirements set forth in K.S.A. 65-1455, and amendments thereto.</p> <p>(2) Each applicant shall show evidence of having successfully completed both a national board examination or an equivalent examination accepted by the state in which the applicant has been previously licensed, and a clinical examination, administered by any state or clinical dental testing agency, of equivalent merit to the clinical examination accepted by the board at the time such applicant completed such examinations.</p> <p>(3) Each applicant for licensure as a dentist under this section shall have held a license to practice dentistry in one or more other states of the United States for the five-year period immediately preceding the date of application and shall have engaged in the active practice of dentistry for at least five years prior to the date of application. Each applicant for licensure as a dental hygienist under this section shall have held a license to practice dental hygiene in another state of the United States for the three-year period immediately preceding the date of application and shall have engaged in the active practice of dental hygiene for at least three years prior to the date of application. Successive and continuous periods of active practice in other states will comply with the active practice requirements of this paragraph (3). For the purpose of determining the period of practice, periods of military service will be considered to the extent approved by the Kansas dental board. Service as a full-time faculty member in a school of dentistry will be considered the practice of dentistry to the extent service involved full-time instruction in dentistry including clinical dentistry. Service as a faculty member in a school of dental hygiene will be considered the practice of dental hygiene to the extent such service involved instruction in dental hygiene including clinical dental hygiene. To be considered for the purposes of this statute, any such school of dentistry or dental hygiene must be approved by the Kansas dental board within the meaning of K.S.A. 65-1426 and amendments thereto.</p> <p>(4) Each such applicant shall show evidence that the applicant has fully complied with all continuing education requirements imposed by the state or states in which the applicant has been licensed and has practiced during the five years immediately preceding the date of the application. In the event the state or states in which the applicant has been licensed and practiced has no such requirement, the applicant shall provide such information concerning continuing education received by the applicant during the five-year period preceding application as may be required by the board. All applicants must have completed continuing education sufficient to comply with that continuing education required of Kansas licensees during the twenty-four-month period prior to the date of the application for licensure unless the Kansas dental board determines, for good cause shown, that the requirement will work an undue hardship upon the applicant and the requirement is not necessary for the protection of the people of Kansas based upon the training and experience of the applicant.</p> |

| | <p>(5) The applicant shall provide such other information concerning the applicant and the dental education, qualification, experience and professional conduct of the applicant as the board in its discretion deems necessary to its determination to issue a license.</p> <p>(6) Each applicant shall provide a certificate of the executive director of the board or other agency governing licensure of dentists or dental hygienists of the state in which the applicant has been licensed and has practiced during the required period preceding the date of the application. Such certificate shall state that: (A) The applicant is licensed to practice dentistry or dental hygiene in the state; (B) the license of the applicant has never been suspended or revoked; (C) the applicant has never been the subject of any proceeding for suspension, revocation or other disciplinary action initiated by the board of licensure of any such state during the period the applicant has held a license to practice dentistry or dental hygiene in such state; and (D) no complaint has been filed against the applicant of such substance as, in the judgment of the board of licensure of such state, has required the initiation of proceedings against the applicant. In the event the applicant has practiced dentistry or dental hygiene in more than one other state in the United States, the applicant shall file a similar certificate with respect to such period or periods during which the applicant has practiced in each such state.</p> <p>(c) The Kansas dental board may direct an applicant to appear before the board at a date, time and place to be determined by the Kansas dental board to answer questions and provide such information concerning the qualifications, background, experience and practice of the applicant as the Kansas dental board may deem necessary.</p> <p>(d) The term "applicant" as used in this section shall apply to both applicants for licensure as a dentist and applicants for licensure as a dental hygienist unless the context otherwise indicates.</p> |

Branches of dentistry. The recognized branches of dentistry for which application may be made for a specialist's certificate shall be the following: dental public health, endodontics, oral and maxillofacial pathology, oral and maxillofacial radiology, oral and maxillofacial surgery, orthodontics, pediatric dentistry, periodontics, and prosthodontics. These branches of dentistry shall be defined as follows:</p> <p>(a) "Dental anesthesiology" means that branch of dentistry dealing with the advanced use of anesthesia, sedation, and pain management to facilitate dental procedures and surgery.</p> <p>(b) "Dental public health" means that branch of dentistry relating to the science and art of preventing and controlling dental diseases and promoting dental health through organized community efforts. Dental public health is the form of dental practice that serves the community rather than the individual patients. This branch of dentistry is concerned with the dental health education of the public, with applied dental research, and with the administration of group dental care programs as well as the prevention and control of dental diseases on a community basis.</p> <p>(c) "Endodontics" means that branch of dentistry concerning the morphology, physiology, and pathology of the human dental pulp and periradicular tissues. The study and practice encompass the basic and clinical sciences, including the biology of the normal pulp; the etiology, diagnosis, prevention, and treatment of diseases and injuries of the pulp; and associated periradicular conditions.</p> <p>(d) "Oral and maxillofacial pathology" means that branch of dentistry concerning the nature, identification, and management of diseases affecting the oral and maxillofacial regions. This branch is a science that investigates the causes, processes, and effects of these diseases. The practice of oral and maxillofacial pathology includes the research and diagnosis of diseases using clinical, radiographic, microscopic, biochemical, and other examinations.</p> <p>(e) "Oral and maxillofacial radiology" means that branch of dentistry concerning the production and interpretation of images and data produced by all forms of radiant energy that are used for the diagnosis and management of diseases, disorders, and conditions of the oral and maxillofacial region.</p> <p>(f) "Oral and maxillofacial surgery" means that branch of dentistry concerning the diagnosis and the surgical and adjunctive treatment of disease, injuries, and defects involving both the functional and esthetic aspects of the hard and soft tissues of the oral and maxillofacial region.</p> <p>(g) "Orthodontics," which shall include "dentofacial orthopedics," means that branch of dentistry concerning the diagnosis, prevention, interception, and</p> |
